OBJECT

I am a passionate Flutter Developer with proven 2.5+ Year experience in building high-quality, cross-platform applications for iOS, Android, and Web. My expertise lies in Flutter, Firebase, and RESTful APIs, along with proficiency in state management solutions like Bloc, Riverpod, and Provider. I specialize in transforming complex UI/UX designs into responsive, production-ready applications while following clean architecture principles. With a strong focus on performance optimization and seamless user experience, my goal is to contribute to innovative teams, take on challenging projects, and continuously grow as a developer while delivering impactful solutions.

PROFESSIONAL EXPERIENCE

Mid Level Flutter Developer (PrimeTeach Solution) 1/02/2024 - Present

- Developed and maintained cross-platform mobile apps using Flutter and Firebase.
- Integrated RESTful APIs and implemented state management (Bloc, Riverpod, Provider,).
- Transformed UI designs from Figma/XD into responsive applications.
- Improved app performance and reduced bugs through optimized code and testing.

Skills

- **Programming Languages:** Dart, Python, Java
- **Framework:** Flutter
- **State Management:** Riverpod, Provider, BLoC
- **Local Database:** Hive, SharedPreferences, Sqflite, Flutter Secure Storage
- **Backend & APIs:** Firebase, REST API, HTTP, Dio, Interceptor
- **Architecture & Patterns:** MVVM, Clean Architecture, Dependency Injection, Freezed (Model Generation)
- **Tools:** Android Studio, Postman, GitHub, GitLab

EDUCATION

Jan 2020 - Dec 2023

Computer Science and Engineering (Presidency University)

CGPA :3.26

- Relevant coursework: Software Engineering, Data Structures, Project Management, Structural Design

PROJECT

Flights Nepal– B2B and B2C Flight Booking App

Prime Tech Solution

- Developed a cross-platform flight booking app for both B2B users using Flutter.
- Integrated a secure payment gateway for seamless online transactions.
- Implemented features including flight search, ticket booking, user authentication, and booking history.
- Designed responsive UI for mobile platforms, ensuring smooth user experience
- PlayStore Link : https://play.google.com/store/apps/details?id=com.ptsl.flightsnepal&pcampaignid=web_share

RUPSE – B2B Flight Booking App

Prime Tech Solution

- Developed a cross-platform flight booking app for both B2B users using Flutter.
- Integrated a secure payment gateway for seamless online transactions.
- Implemented features including flight search, ticket booking, user authentication, and booking history.
- Designed responsive UI for mobile platforms, ensuring smooth user experience

TRIPPER– B2B & B2C Travel Booking App

Prime Tech Solution

- Designed and developed a cross-platform app for hotel booking, travel packages, and visa information targeting both B2B and B2C users.
- Integrated real-time booking, dynamic package listings, and a clean, responsive UI.
- Used Flutter with Firebase backend and state management via Provider.
- Ensured smooth navigation and secure data flow for a seamless user experience
-

BUY TICKET – B2B & B2C Ticket Booking App

Prime Tech Solution

- Developed a Flutter-based ticket booking app for B2B and B2C users, focusing on flight ticket purchases.
- Features include flight search, booking, payment gateway integration, and user authentication.
- Used Firebase as the backend and Provider/GetX for state management.
- Designed a clean and responsive UI for smooth user interaction.
- **PlayStore** Link : https://play.google.com/store/apps/details?id=com.buytickets.bd&pcampaignid=web_share

Meal Management -Bachelor Mess

Personal Project

- The manager can add members (people living/using the mess).
- Add market costs (expenses for buying groceries, etc.).
- Manage market schedules (when to buy).
- Track how much money each member has given or taken.
- Do all the calculations automatically for dues and balances.

E-Commerce App

Personal Project

- Built a complete shopping app using Flutter and RestApi.
- Features include user authentication, product listings, cart, and order management.
- Implemented responsive UI and used Provider for state management.
- GitHub: github.com/AbuRasel9/Ecommerce-App
